REASONS FOR ALLOWANCE

1. Applicants' response to the last Office Action, filed 4/19/2007 has been entered and made of record.

2. The following is an examiner's statement of reasons for allowance:

Independent claims 1 and 12 are allowable over the prior art of record. Claims 2-11 and 13-19 depend from claims 1 and 12 respectively, therefore, are allowed.

Independent claims 1 and 12 recite the limitations of: the count is corresponding to the number of pixels identified in the received frame as having scintillation noise; and displaying the received frame if the amount of pixels counted is greater than the threshold.

The combination of these features as cited in the claims in combination with the other limitations of the claims, are neither disclosed nor suggested by the prior art of record.

The closest reference of Judice ("Digital Video: A Buffer-Controlled Dither Processor for Animated Images", IEEE, November 1977, pages 1433-1440) discloses a method for scintillation suppression and displaying the filtered frame if the amount of pixels counted is less than a threshold. However, Judice does not teach the limitations cited above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
